Srikakulam, Andhra Pradesh

## PROFESSIONAL SUMMARY

Final-year B.Tech CSE student (9.03 CGPA) with AWS Cloud Practitioner certification, hands-on internship experience deploying cloud infrastructure, and a co-authored IEEE research paper in deep learning and medical imaging. Skilled in Python automation, Salesforce LWC development, and serverless architecture. Seeking entry-level roles in cloud engineering, software development, or AI/ML.

## TECHNICAL SKILLS

|                              |                                                                                                             |
|------------------------------|-------------------------------------------------------------------------------------------------------------|
| <b>Languages</b>             | Python, C, C++                                                                                              |
| <b>Web Technologies</b>      | HTML, CSS, REST APIs                                                                                        |
| <b>Cloud (AWS)</b>           | EC2, S3, Lambda, DynamoDB, CloudFormation, IAM, VPC, API Gateway, CloudWatch                                |
| <b>Salesforce</b>            | Lightning Web Components (LWC), Visualforce, Flows, Apex basics                                             |
| <b>AI / ML</b>               | TensorFlow, Keras, CNN, MobileNetV2, NumPy, Pandas, Matplotlib, Scikit-learn                                |
| <b>Cybersecurity</b>         | Kali Linux, Burp Suite, Wireshark, DeepSound, OWASP Top 10, PortSwigger                                     |
| <b>Tools &amp; Platforms</b> | Git, GitHub, VS Code, MS Office, Linux CLI, Docker (basics)                                                 |
| <b>Concepts</b>              | Serverless Architecture, Data Structures & Algorithms, Agile/Scrum, CI/CD, Network Forensics, Steganography |

## INTERNSHIP EXPERIENCE

### Cloud Computing Intern (AWS) — Amazon Web Services May 2025 – Jul 2025

- Deployed and managed cloud infrastructure across EC2, S3, Lambda, and CloudFormation, enabling scalable, cost-efficient architecture for production workloads.
- Built Python automation scripts that streamlined resource provisioning and CloudWatch monitoring, reducing manual effort by an estimated 25–30%.
- Collaborated with engineering and DevOps teams to audit cloud resource usage and implement cost-optimization strategies across multiple AWS services.
- Configured IAM roles and VPC networking with least-privilege access policies; designed and deployed serverless workflows using AWS Lambda and API Gateway.

## PROJECTS

### Brain Hemorrhage Detection & Classification using CNN + PSO Final Year Project | 2025

- Built a deep learning model to automatically detect and classify brain hemorrhage from CT scan images using CNN (MobileNetV2) and Particle Swarm Optimization (PSO).
- PSO optimized CNN hyperparameters (learning rate, batch size, neurons, dropout), achieving a test accuracy of 94.64% and ROC-AUC score of 0.9861.
- Outperformed baseline ResNet50 and VGG16 architectures; trained on Brain CT Hemorrhage dataset (Kaggle) with 1,343 images across Normal and Hemorrhage classes.
- Tech stack: Python, TensorFlow, Keras, MobileNetV2, NumPy, Pandas, Matplotlib, Scikit-learn, VS Code.

### HomeMade Pickles & Snacks — Cloud Web Application 3rd Year Project | 2024

- Designed and developed the front-end interface using HTML and CSS, focused on user-friendly navigation and responsive layout for small business customers.
- Designed and deployed a full-stack cloud-based web app on AWS (EC2, S3, Lambda, DynamoDB) enabling real-time order management and automated backend processing for a small food business.
- Implemented serverless backend with Lambda triggers and DynamoDB event-driven updates; achieved high availability with auto-scaling EC2 configuration.
- Reduced hosting costs vs traditional server setup using a serverless-first architecture.

## PUBLICATIONS

---

Dokkari Sowjanya et al., "*Metaheuristic-Assisted Deep Learning for Brain Hemorrhage Detection and Classification*," IEEE (2025, under review/submitted).

## EDUCATION

---

**B.Tech in Computer Science & Engineering — 9.03 CGPA** — Aditya Institute of Technology and Management, Tekkali Sep 2022 – May 2026

**MPC — 86%** — Sri Kumar Junior College, Haripuram Jun 2020 – May 2022

## CERTIFICATIONS & TRAINING

---

- AWS Cloud Practitioner — Global Certification (Amazon Web Services)
- Responsive Web Design — freeCodeCamp (*in progress*)
- Salesforce Trailhead Triple Star Ranger — 12 Super Badges (Platform Developer, Security Specialist, App Customization, Business Administration, etc.) + 36 Trails
- NPTEL: Problem Solving through Programming in C (IIT Kharagpur) | Joy of Computing using Python (IIT Madras) | Introduction to Machine Learning (IIT Kharagpur)
- Virtual Internships (AICTE-Edu Skills): AI-ML & Data Engineering (AWS Academy), Network Security (Fortinet), Zero Trust Security (Zscaler), Data Science Master (SIEMENS)
- Ethical Hacking & Cyber Security Workshop — Level 1 & Level 2 (SUPRAJA Technologies)
- Information Technology & Web Development using Django (APSSDC)

## ACTIVITIES & ACHIEVEMENTS

---

### Competitions & Achievements

2025

- Declared winner in SCMHRD Rookie 10.0 across 3 rounds: Full-length Mock (Monaco Grand Prix), Quantitative & Data Interpretation (The Power Lap), and Analytical & Logical Reasoning (Logic Pit Stop) — Dec 2025.
- Declared winner in Marketing Quiz and Consulting Quiz on Unstop (Sep 2025).
- Qualified for Grand Finale of Capture The Flag: Alien Protocol — Technicia'25, ISTE Chandigarh University, selected through national-level Cyber Crisis Qualifier round (Sep 2025).

### Ethical Hacking Hackathon — Level 1 & Level 2 — SUPRAJA Technologies

2023–2024

- Level 1: Solved CTF challenges in network forensics and steganography using Kali Linux, Wireshark, and DeepSound.
- Level 2: Performed web application penetration testing and vulnerability analysis using Kali Linux and Burp Suite; applied OWASP Top 10 concepts and PortSwigger lab techniques.

### National Service Scheme (NSS) — Volunteer — Aditya Institute of Technology and Management

2022 – Present

- Participated in campus cleanliness drives to maintain a healthy campus environment.
- Took part in yoga sessions promoting physical and mental wellness among students.
