PROFESSIONAL SUMMARY

Software Developer with experience in Python, C, C++, web technologies, and data analytics, seeking opportunities in Software Development, Python Development, and Data Analyst roles.

TECHNICAL SKILLS

Programming Languages	Python, C, C++
Web & Data Analytics	HTML, CSS, SQL, Power BI, Pandas, NumPy
Cloud & Salesforce	AWS (EC2, S3, Lambda, DynamoDB), Salesforce (LWC, Visualforce, Flows, Apex Basics)
AI/ML & Development Tools	TensorFlow, Keras, Scikit-learn, CNN, Prompt Engineering, GitHub, VS Code, MS Office

INTERNSHIP EXPERIENCE

Cloud Computing Intern (AWS) — SmartBridge Educational Services Pvt. Ltd. *May 2025 – Aug 2025*

- Assisted in deploying AWS infrastructure with EC2, S3, Lambda, CloudFormation, and API Gateway, and automated resource provisioning and monitoring using Python and CloudWatch, reducing manual effort by 25–30%.

PROJECTS

AI Resume Screening System *sep 2026*

- Developed a Flask-based ATS resume screening system with skill matching, text similarity, ATS scoring, skill-gap detection, recommendations, and PDF report generation.
- Tech: Python, Flask, NLP, scikit-learn, TF-IDF, PDF/DOCX Processing, ReportLab.

Brain Hemorrhage Detection & Classification using CNN + PSO *Dec 2025 - Mar 2026*

- Developed a deep learning model with PSO for brain hemorrhage detection, achieving 94.64% accuracy and 0.9861 ROC-AUC.
- Tech : Python, TensorFlow, Keras, MobileNetV2, NumPy, Pandas, Matplotlib, Scikit-learn, VS Code.

HomeMade Pickles & Snacks — Cloud Web Application *July 2025 – Aug 2025*

- Developed a responsive cloud-based web application for online order management and deployed a serverless AWS backend using EC2, S3, Lambda, and DynamoDB with event-driven processing.
- Tech : HTML,CSS,AWS EC2,AWS S3,AWS Lambda,DynamoDB,Serverless.
